

OUR CLIENTS ARE OUR EXPERIENCE

*Commitment
to our clients.*

*Quality,
reliability and
efficiency*

We are a company specialized in the **design, assembly and maintenance of Refrigeration and HVAC** facilities, with vast experience in these sectors during decades.

In Enfrio, we focus on **quality, energy efficiency and new technologies**, which we implement in both our facilities and operating methods.

The **driving force behind our company is our personnel**, a human team that due to the experience of several generations has gained the trust and recognition of the most prestigious enterprises.

OUR COMMITMENT

To provide our clients with the comprehensive management of their facilities, including preliminary viability studies, project engineering, implementation and maintenance services.

PROVIDING ADDED VALUE

ENGINEERING ►► CONSTRUCTION ►► MAINTENANCE

ENGINEERING

Our technical team is made up of specialist engineers with vast experience in the refrigeration and HVAC sector. Ensuring all our projects provide **maximum energy efficiency** for each and every facility.

CONSTRUCTION

We possess the **experience, expertise and structure required** to execute any kind of facility, both refrigeration and HVAC. The Enfrio team is entrusted with the assembly and the commissioning of the facility, and provides follow-up services during the first months of operation.

MAINTENANCE – 24/7

The company's main propose is to achieve the total satisfaction of our clients. Therefore, one of the most important services is Maintenance, Enfrio has a **specialized team trained to provide a rapid, efficient and effective service**, available 24/7 throughout the year.

Our experience enables us to develop and implement first-rate, efficient, eco-friendly solutions.

REFRIGERATION

QUALITY AND RELIABILITY FOR YOUR FACILITIES

We are aware that cooling systems are vital to the operational reliability of our clients' business. Hence, our main aim is to **provide the best technical solutions combined with a thorough maintenance service** to guarantee the perfect working order of your facilities.

Our **specialized team designs and executes a wide range of refrigeration facilities**, the result of 35 years of experience and innovation. The quality, reliability and efficiency of our facilities has been our operating philosophy throughout all these years.
